

POLIMIX is a feed designed to meet the nutritional requirements of the horses subjected to long-lasting efforts.

- With varied energy sources (starch, fat and fiber) that are suitable for long-lasting efforts.
- High fat levels that ensure a gradual energy release.
- The combination of soybean oil, extruded linseed and extruded rice, grants a high essential fatty acids content (Omega 3 and Omega 6).
- Contains high quality-protein sources that ensure a correct supply of essential amino acids to tissues.
- High fiber content (pectin and hemicellulose) that contributes to the integrity of the Digestive System and promotes hydro electrolyte balance.
- Enriched with Vitamin E and Organic Selenium, that are fundamental for muscle recovery.
